**Week 4: Lab Exercise 3**

Due date: Friday, Feb 12 midnight.

- o Save the file as **wk4_excercise.html**
- o Upload it to: my.gblearn.com under:
- o public_html/comp1223/lab/practices/wk4

Create a web page as shown:

Use an external CSS file to make the body background lightblue.

Remember to use the correct semantic elements for each section of you HTML code i.e. header, main and footer.

Use internal CSS in the head section to:
- increase the h1 font by 300%
- turn the h1 text color purple

h1 → **Your Name**

h2 → **student id**

hr →

Use the inline style attribute to:

h2 → **My three favorite colours are:**

p → Red ← turn the text red

p → Blue ← turn the text blue

p → Green ← turn the text green

hr →

This page was last modified on 9/22/2019, 3:42:38 PM

Check:
- ☐ Did I save the file correctly?
- ☐ Did I upload it to the correct folder?
